

EMINENCE NOW

MAYOR'S MESSAGE

Volume 5

May, 2016

Why did it take Norms closing to get a new grocery store?

People often think that the city decides what businesses locate here in Eminence. The truth of the matter is that the city has absolutely no say or influence in what businesses decide to locate here. In fact, we often are not notified that a business is considering locating here until very close to the time they make their final decision. Businesses do extensive studies to determine where they will put new locations. They review demographics and traffic patterns and population and shopping habits before they choose the best locations to invest their money. The city does have an economic development committee that tries to entice businesses to consider locating in Eminence. We are so happy that Save A Lot has decided to locate here. Norms has been a blessing to our community for many years. We certainly appreciate all their years in Eminence and their support of our community. We wish the whole family the very best in their next ventures.

Drane Stephens

Eminence Speaker 50th Anniversary Celebration

Join us for a free concert on Saturday, July 30th in downtown Eminence.

In 1966 Bob Gault started Eminence Speaker in a small building with the hopes of building three 18 inch speakers per day. Over the course of the next 50 years, his company has grown to become the world's largest loudspeaker manufacturer, providing the highest quality products to the audio industry's most recognized brands. Eminence Speaker's success could not have been possible without the support of the Eminence community we call home. To show our appreciation, Eminence Speaker will be hosting a 50th anniversary concert on Saturday, July 30th in downtown Eminence. Please join us for a fun evening of live music. Food and beverage vendors will be on-site. We hope to see you there!

Stay tuned to the Henry County Local and the city's website at www.eminencekentucky.com for more details.
